

YOUNG ADULT CONNECTION

Young Adult Connection (YAC) program is for individuals with autism ages 19 to 30 years old. The YAC program is designed for young adults with autism to make new friends while working on social, life, and soft job skills.

Group members get to choose a specific community outing each month. YAC community outings could be volunteering at a local library, going to see a movie, shopping at the mall, going to a baseball game, going bowling, enjoy holiday parties, etc.
